

SKID STEER FORK AND FRAMES

Arrow Pallet Fork and Frames feature a heavy-duty frame engineered to sustain the impact of everyday use. Our forks are made of a premium-grade steel that outperforms the competition. Choose from Class II and Class III variations to find the right fit for your machine. Arrow Pallet Fork and Frames come in 36" to 84" widths, with and without hydraulics, and capacities from 1,500 to 9,000 lbs.

MINI FORK AND FRAMES

Max out your walk-behind skid steer or tractor with Arrow's Mini Pallet Forks. They may be lightweight coming in at under 200 lbs. but they can still deliver excellent service with their 1,500 lb. capacity assemblies. They're made with a mini universal coupler, however, other coupler/hitches are available. This durable frame accepts standard ITA Class II Forks.

PART #	WIDTH	WEIGHT	CAPACITY	ADJUSTABLE FORK SPREAD
F3036*	36 in	126 lb	1,500 lb	0 – 35 in
F3040*	40 in	137 lb	1,500 lb	0 – 39 in

* Comes standard with mini universal coupler, however, other couplers or pin-on hitches are available.

AG FRAMES

Arrow's Ag Frame is designed specifically for customers in the Ag industry – comes standard with quick coupler plates to attach to a tractor, or can be made to direct pin-on to loader arms. Don't let the lightweight design fool you – this frame can lift up to 4,500 lbs. The backrest stabilizes loads and protects operators from errant debris.
